

# Welcome to the Knights Inn Family

October 8, 2009

Properties Pictured (From Top To Bottom): Hancock, ME.; Cornwall, CAN; Merritt, CAN; Franklin, NC; Bay City, MI.

At the end of 2008, Knights Inn® commemorated its success with a flyer announcing that it had reached the 300-property milestone with a new property opening in Pharr, Texas.

Remarkably, it did not take us long to reach another milestone. Nine months later the brand reached the 20,000 room mark. Our total number of properties now stands at 328. When you consider that we stood at 184 properties in 2004, we are one of Wyndham Hotel Group's fastest growing brands.

"Our growth demonstrates great interest in the Knights Inn brand," said brand senior vice president Rajiv Bhatia. "The positive perception of the brand name, the quality of our products, the broad scope of Wyndham resources and the brand's ability to generate consumer interest all continue to attract discerning owners and developers."

"We are well positioned for continued growth and will push forward aggressively in core and emerging markets. As we continue to expand, I look forward to watching the Knights Inn name appear everywhere travelers need a great room and a fair price."

Here is a list of our third quarter additions. Please join me in welcoming them to the Knights Inn Family!
